## Key Features

### Low cost tough tablet

The LCW Series of tough tablet are the perfect choice for running warehouse and stock applications in tough, busy environments. A built-in 2D barcode reader makes for quick and accurate scanning of all 1D and 2D codes, and the full colour 8-inch or 10-inch touch screen allows for easy manual data entry. The rear-hand strap allows users to operate the device comfortably without needing to constantly grip the device; perfect for long shifts or intensive scanning and NFC is available as an option for card payment applications.

### Complete connectivity

The LCW Series of tough tablets are designed to stay connected wherever they go, giving operators complete freedom throughout their working day. Dual band Wi-Fi allows for a fast connection to any network, and 4G network coverage allows data to be relayed while out in the field or out of Wi-fi range. 6000mAh (LCW8) or 8000mAh (LCW10) batteries provide all day power.

### Waterproof and drop resistant

The LCW Series of tough tablets have been specially designed to withstand tough working conditions. An IP65 (10-inch) and IP67 (8-inch) seal rating means it's completely protected from water, dust and dirt, and accidental drops of up to 1.2 metres won't cause any damage to the device.
