New Generation mPOP

Unique mPOS solution

Introducing the new mPOPCBI. Part of Star's mCollection for Mobile POS, the new generation mPOP is a versatile and compact combined cash drawer and receipt printer for retail, hospitality, food trucks, salons and pop-up stores.

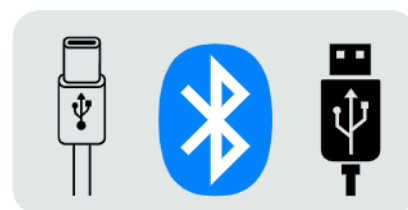

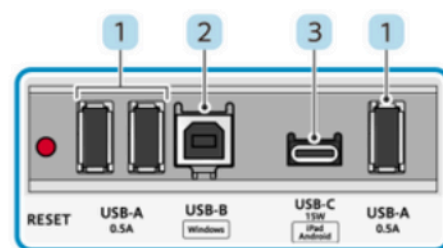

This portable mPOS solution is designed to work seamlessly with iOS and Android tablets and devices and is compatible with a wide range of leading mobile POS and Payment applications.

Superior Connectivity

The mPOPCBI offers multiple connectivity options. For a stationary mPOS solution, the mPOPCBI offers **communication and charging via USB-C directly to supported tablets**. With USB-C connectivity, there's no need for pairing — simply plug and play while simultaneously charging your tablet, making the process incredibly efficient.

The mPOPCBI also supports **Bluetooth 5.0 with simple pairing to iOS and Android tablets for mobile use around the store**.

The mPOPCBI also includes **additional USB-A ports** for connecting scanners, customer displays, or other devices, offering flexibility for expanding your POS setup.

Compact cash drawer

- Versatile integrated cash drawer
- Fast drawer release
- 4 upright note holders and configurable 6 or 8 coin slots.
- Removeable tray for high value notes and vouchers
- Software lock for additional security

Reliable integrated receipt printer

- Direct thermal 58mm receipt printer
- Simple "Drop-In" paper loading
- High quality autocutter
- Anti-curl mechanism for printing flat receipts
